

## Modbus/TCP values Mapping - Damocles MINI

Digital values					
Address	Operation	Type	Function	Values	Meaning
100	read	bit	2	0 - open, 1 - close	Input 1 - current value
101	read	bit	2	0 - open, 1 - close	Input 2 - current value
102	read	bit	2	0 - open, 1 - close	Input 3 - current value
103	read	bit	2	0 - open, 1 - close	Input 4 - current value
200	read	bit	1	0 - open, 1 - close	Output 1 - current value
201	read	bit	1	0 - open, 1 - close	Output 2 - current value
200	write	bit	5	0 - open, 1 - close	Output 1 - set value
201	write	bit	5	0 - open, 1 - close	Output 2 - set value

In the table are reported all the Damocles Mini registers and the Modbus function to operate on them.
